

DSI® Managed Administration Services

We're Here When You Need Us

DSI Delivers With a Dedicated U.S. Service Staff Available to Assist You 24/7/365

DSI Managed Administration Services gives you 24/7/365 access to certified and experienced specialists. We proactively monitor, manage, and maintain your DSI software, users, servers, and databases to improve your operational effectiveness while elevating levels of support without adding IT staff.

There is no company better qualified to support your DSI environments. With more than 30 years as a technology-based systems integration company, DSI is the only choice for your administration needs.

- **ERPs:** Oracle E-Business Suite, Oracle JD Edwards (OneWorld, EnterpriseOne, and World), Oracle PeopleSoft Enterprise, SAP, Lawson M3, SSA Global, and client custom legacy applications
- **Databases:** DB2, SQL Server, Oracle
- **Platforms:** Unix, Linux, Wintel, AS400/iSeries

DSI Saves You Money

DSI services reduce fixed costs, total cost of ownership, and unproductive downtime. Receive improved system availability, stability, and performance while reducing your cost and enhancing your ability to focus on your core business.

Eliminate IT Concerns

Enlist DSI to manage your DSI system. No need to worry about staffing, turnover, or continual training. Forget about sick days, vacations, and calls in the middle of the night. DSI provides expert-level support when you need it, where you need it 24/7/365. Whatever your current situation, DSI administration specialists have the experience and expertise to enhance your existing enterprise software investment.
